Company Profile

In 2024, PT Kaya Lautan Permata (Kaya) obtained an APERD (Agen Penjual Efek Reksa Dana) license from the Otoritas Jasa Keuangan (OJK), marking a significant milestone in our commitment to regulatory excellence and investor protection.

As a leader in AI-based asset allocation advisory, Kaya leverages advanced algorithms and real-time data to deliver intelligent, personalized investment strategies. Our platform simplifies and optimizes investing, aligning portfolios with each investor's financial goals, risk profile, and market conditions.

Investment Objectives:

Kaya's investment strategy aims to generate absolute returns by strategically investing in bonds and term deposits.

Kaya's Trimegah Conservative Long Portfolio is designed to generate enhanced returns through a higher allocation to bonds, complemented by selective exposure to term deposits for liquidity management. The strategy adopts a more tactical allocation to capture market opportunities, while maintaining a disciplined risk management framework to mitigate downside risks. Through active and tactical asset allocation, the portfolio seeks to optimize return potential while preserving portfolio resilience, making it suitable for investors with a higher risk tolerance and longer investment horizon.
